I attended ENMU one year. Sold Stanley Home Products three years while Bill went to school. We lived in Norman, Okla. one year but couldn't stand the allergies there so we decided to get Bill's degree from the desert instead. Las Cruces was our home for four years. While there, we enjoyed desert hiking and exploring in the Organ mountains. I did a lot of painting in Las Cruces and after moving back to Portales opened an art studio to teach oil painting. We spent about 3 years building our own house in the country & I now teach painting there. Also enjoy indoor gardening and working in the yard. (Love to shovel and rake!) Kim was Valdictorian of PHS this year and a twirler. She plays piano and baritone. Sandy was a Jr. High twirler & plays baritone and guitar. The four of us enjoy paddle tennis.

Spouse: Robert Children: Erik -17; Don - 15; Jon - 14; Lucinda -9; Robin -6

Naturally, our family is our main occupation. However, since families require support, Bob runs a mobil-home maintenance business. I am fortunate enough to be doing that which I always dreamed of doing.....teaching English at the secondary level. I was a college-drop-out because of the needs of our small children. However, in 1968, we gritted our teeth and sent "mom back to school". I received my BS from ENMU and then was fortunate enough to be awarded a Fellowship to St. John's College where I earned an MA in Education. Also during this time I was teaching English and serving as department head in a Northern New Mexico district situated in and around Tierra Amarilla, New Mexico. Then our Jon was the victim of a tragic hunting accident which left him handicapped and our family more closely knit and stranger than we believed possible. Jon's condition dictated our moving near an urban area for treatment. Although we looked elsewhere, my native New Mexican heart couldn't feel at home outside the state. We really came home when we found this tiny farm situated between Los Lunas and Belen. I teach in Belen High and LOVE it. Currently, we're planning for the children's education, and I'm toying with the idea of getting my PhD and teaching English teachers. Que Sera!

Hobbies: I love people, reading, writing, sewing, gentleman (person?) farming, and just living. We are great do-it-yourselfers, like camping and hiking, and spend a lot of time visiting ghost-towns, abandoned mines, and areas thickly strewn with artifacts of the past. We garden, are involved in community and church service projects, and raise registered sheep as an avocation. With whatever time is left, I draw a little, write a little, think a lot & talk even more. With so many of us in the family, the interests are myriad....and shared. I think its a great way to stay young-in-heart and broad-minded.

I guess you could say Bill's hobby is helping the neighbors. Keeps him pretty busy. I like cake decorating, hair cutting (men & women) and wood-working or cabinet building. We just enjoy living since we've let Jesus into our lives and are trying to live as He would have us live. He's a wonderful Savior & it's a great life. We also have one Granddaughter, two years old, and another one on the way. We cannot attend the reunion much as we'd like to. Bill's folks are having their 50th Wedding Anniversary the 29th of May and we feel that we should attend that. I wish the reunion had been the 3rd of June instead of July. I haven't quite decided yet what I'd rather do. That, briefly, highlights what we are doing at the present. I could fill a book with details, but who couldn't?!
